John – My understanding was that we resolved the issues pertaining to the overbroad discovery demands on defendants during our recent call. As we agreed, we'll comply with the Court's order on the scope of permissible discovery and are working to obtain the necessary information concerning access to Mr. Abdin's Steam posts by the individuals involved in the introduction of the tardigrade character in Star Trek. As for the subpoena on Valve, we do not anticipate moving to quash but defendants reserve their rights. As also discussed, we do insist that a stipulated confidentiality order be entered in light of the non-public information plaintiff is requesting. We will prepare a draft for your review

Hey Wook. Just want to make sure that we are on the same page with respect to the discovery request. Our discussion should have cleared up any issues with the request. Let me know if that is not your understanding.
